Appl. No. 10/532,397 932.1291

Amdt. dated September 29, 2006

Response to Office Action of June 2, 2006

## Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

## Listing of Claims:

- 1. (Currently Amended) A process for preparing the intermediate
- 2-(2,3-dichlorophenyl)-2-(aminoguanidine)acetonitrile, of formula (II):

(II) 
$$H_2N$$
  $NH_2$ 

which comprises the reaction of 2,3-dichlorobenzoyl cyanide with aminoguanidine bicarbonate, wherein it is carried out in non-aqueous medium in the presence of methanesulphonic acid as the only reaction medium; and wherein once the reaction has finished, the process further comprises the steps of:

## i) adding water;

- ii) adjusting the pH of the medium to a pH higher than the pKa of hydrogen cyanide;
  - iii) isolating intermediate of formula (II).
- (Previously Presented) Process according to Claim 1, wherein said reaction is carried out within a temperature range of 20 to 80 °C.

and

932.1291

Appl. No. 10/532,397 Amdt. dated September 29, 2006 Response to Office Action of June 2, 2006

 (Previously Presented) Process according to Claim 2, wherein said reaction is carried out within a temperature range of 30 to 60 °C.

## 4. (Cancelled)

- 5. (Currently Amended) Process according to Claim 1 [[4]], wherein in ii), said adjustment of the pH is carried out by adding a sodium hydroxide solution.
- 6. (Currently Amended) Process for preparing the
- 3,5-diamino-6-(2,3-dichlorophenyl)-1,2,4-triazine, of formula (I):

or a pharmaceutically acceptable salt thereof, which comprises the following steps:

- a) preparation of the intermediate
- 2-(2,3-dichlorophenyl)-2-(aminoguanidine)acetonitrile, of formula (II), according to claim 1;
- b) cyclisation of said intermediate of formula (II) in an aliphatic alcohol or in an aliphatic alcohol/water solution under reflux; and, if desired, obtaining a pharmaceutically acceptable salt thereof.

Appl. No. 10/532,397 932.1291

Amdt. dated September 29, 2006

Response to Office Action of June 2, 2006

7. (Currently Amended) Process according to Claim 6, wherein said aliphatic alcohol used in step b) may be chosen from between ethanol and isopropanol.
